Sample PDF One

This is the first sample PDF for testing your Python PDF merger. It contains a few lines of text.

File name: sample1.pdf

Sample PDF Two

This is the second sample PDF. If your merger works, its pages should appear after Sample PDF One.

File name: sample2.pdf

Sample PDF Three

This is the third sample PDF. Use all three files as command-line arguments to test merging.

File name: sample3.pdf
